main.cpp

Source History

```
using namespace std;

int main()
{
    int var1 = 1;
    while (var1 = 2)
    {
        cout << "Test";
    }
    return 0;
}
```

Output

sorting (Build) | sorting (Build, Run) | sorting (Run)

```
tTestTestTest
```
